INTEGRATED TECHNOLOGIES DRIVING PROGRESS

Empowering Industries with Smart Solutions

At GTS, we bring together innovation, reliability, and sustainability to deliver integrated solutions across aviation, energy, mobility, and environmental sectors. Our services are designed to meet today's challenges while preparing businesses for tomorrow.

Advantages of Choosing Our Solutions

Partnering with GTS Integrated Technologies means gaining access to solutions that not only meet today's operational needs but also prepare your business for the future.

- Sustainability Impact – Clean energy, EV charging, and waste management solutions that support a greener and eco-friendly future.
- Future Readiness – Smart, scalable technologies designed to adapt with evolving industry trends and global demands.
- Global Standards Compliance – Equipment and systems that align with international safety, quality, and environmental regulations.
- Stronger Reliability – Partnerships with world-class manufacturers ensure durable, high-performance products..

Our Core Sectors

Our core services drive innovation, efficiency, and long-term impact across industries.

Aviation Support

Delivering premium Ground Support Equipment (GSE) such as aircraft tugs, power units, and baggage systems to optimize airport operations and ensure reliable performance.

Waste Management

Supplying advanced equipment for collection, processing, and disposal to improve efficiency, reduce environmental footprint, and comply with global standards.

Solar Energy

Providing end-to-end solar solutions from panels to installation and project management helping businesses and homes cut costs and move toward energy independence.

EV Charging

Installing fast and smart EV charging infrastructure for residential, commercial, and public applications, supporting the transition to cleaner mobility.

Why Choose GTS?

- Trusted partnerships with leading global manufacturers
- Complete end-to-end project support and consultation
- Commitment to sustainability and innovation
- Reliable solutions tailored to client needs

TAKEAWAY RECOMMENDATIONS

1

Leverage our combined expertise in aviation, energy, EV, and waste management for streamlined efficiency.

2

Prioritize renewable energy and eco-friendly technologies to reduce costs and environmental footprint.

3

Modernize infrastructure with advanced equipment that meets global standards for safety and reliability.

4

Build long-term resilience with smart energy and mobility solutions tailored to future industry needs.

5

Use end-to-end project support to save time, optimize resources, and maximize operational performance.

6

Ensure your operations align with local and international environmental and safety regulations.

7

Provide training and technical guidance to enhance skills, productivity, and safety culture.

8

Work with GTS as your trusted technology partner for innovation, growth, and sustainable progress.

WHAT WE OFFER

GLOBAL TRANSIT SOLUTIONS

Aviation Ground Support Solutions

We supply and trade high-quality Ground Support Equipment (GSE) for the aviation industry. Our portfolio includes aircraft tugs, ground power units, baggage handling systems, and more. Every product is sourced from trusted global manufacturers to ensure durability and performance. These solutions are designed to optimize and streamline airport ground operations.

Sustainable Waste Management Solutions

GTS delivers advanced equipment for efficient waste collection, processing, and disposal. Partnering with reputable manufacturers, we provide reliable and high-performance solutions that improve operational efficiency while reducing environmental impact. Our systems comply with both local and international environmental standards, supporting a cleaner and more sustainable future.

Comprehensive Solar Energy Solutions

We specialize in providing end-to-end solar solutions for residential, commercial, and industrial applications. From high-efficiency solar panels to expert installation and complete project management, we help clients lower energy costs, cut carbon emissions, and achieve long-term energy independence through clean, renewable power.

EV Charging Infrastructure Solutions

GTS offers cutting-edge electric vehicle charging systems tailored for both residential and commercial use. Our range includes fast chargers, smart charging stations, and complete installation services. These solutions provide convenient, efficient, and sustainable charging infrastructure for homes, businesses, and public spaces.

CLIENTS & PARTNERS

Contributed to the successful delivery of multiple projects in partnership.

Featured Projects:

- Supplied and installed electrical panels for Arena Food Court, DHA Multan
- Delivered main and sub-main panels at DHA Bahawalpur – Dealers Enclave
- Executed supply of Main, ATS, Electrical & Control Panels
- Provided Main, Sub-main & Light Distribution Boards (DBs) for Shopping Arcade, DHA Multan
- Supplied main electrical panels for DHA Multan – Site Office
- Delivered main electrical DBs for Sector Shops, DHA Bahawalpur
- Supplied electrical panels for a Commercial Building Project
- Installed electrical DBs and main panel at Rumanza Gate
- Supplied main electrical house panels for DHA Multan Villas
- Delivered VOC & CO₂ Control Panels for Green House Project
- Delivered main and sub-main panels for Sector U Water Tank & Staff Residences
- Supplied main electrical panels for Sector H – Mohalla Mosque
- Delivered main electrical metering panel for Dealers Enclave-2, DHA Multan
- Executed supply of main and sub-main panels at Amphitheater, DHA Multan
- Supplied Street Light Control Panels for Sector Electrification (Sectors V, T, N) – DHA Multan
- Delivered main electrical panels and ATS for Defense Orchid Event Complex
- Supplied street light control panels for Askari-3 Housing Project
